Subject: Chlormequat chloride import tolerance

Hi, Jessica.

Good news. I just got an email saying that we will not be issuing a 10-day letter, so the import tolerance application will stay with the Agency. We will, however, be getting back to you this week with a 75-day letter that will ask that you provide a schedule for submittal of the ACN study. We will address this to Cinda Bell, but send to you as well.

Best regards,
Lindsay
